

## Happy Hounds Organic Biscuit Bakery Goes Hollywood!

By Krista Harrison, Managing Partner

Dated: Aug 08, 2008

*Our Happy Hounds Organic Biscuit Bakery is thrilled to announce that their Gourmet Organic Dog Treats will be at the Emmy's.*

Our Happy Hounds Organic Biscuit Bakery will be part of an Emmy after-award party featuring Sustainability. Durkin Entertainment, in conjunction with Access Hollywood will be hosting the event. Happy Hounds Organics will be adding their Certified Organic Peanut Butter-Oatmeal Bones, Roxy's Organic Nutty Hearts and Sammy's Organic Sweet Potato Biscuits in 150 of the exclusive gift bags provided for the attendees. Special Gold Cotton Metallic Ribbon will be added to the packaging, in honor of the event.

It is an honor for Debbie and Krista, owners of Our Happy Hounds, to be able to add their products.

It is the hope of these women that the recipients will notice the care that goes into each and every batch of their Gourmet products. Mixing the treats by hand, with extra care to use only Certified Organic Ingredients, keeps with the company's goal to be sustainable and eco-proactive. "It takes more time for us to source the ingredients, and of course they are more expensive, but we have a mission to protect the health of the pet while protecting the health of the Earth", added Krista Harrison, Managing Partner.

Debbie Russell, head of the Bakery Operations, began the business because she was dismayed at the ingredients in the treats she bought her dogs. "When I saw the ingredient panel and read: meal and artificial, I knew I had to be responsible for all of these animals I love so much", said Debbie.

The business is thriving, and so are the animals that are so fortunate to have Organic Treats. The products are available at select retailers and online.
